You can make a difference.

There are 40,000 Street Children in Kenya.

Help us to make a difference.

We help children like these, to get off the street and either back to their families or with a guardian. They are taught how to grow crops to feed themselves, and where possible are sent to school to be educated. Some older children are taught a trade. Kennedy, above, has been taught to bake bread which he sells to the public.

Now he can feed himself.
